1. Darryl’s mother, Brittany, decided on a family goal of moving to a neighborhood which is safer and has a park within walking distance. She is concerned about increasing violence in the neighborhood and also the large amount of time her children play computer games. During intake, Brittany disclosed the same information on the Family Assessment.
   a) Is there any possible urgency in this need/goal? Why?
   b) The needs and concerns identified are related to which family engagement outcome?
   c) Performance Standard Citations (2):

2. Jasmin has not arrived this morning and class began an hour ago. You know of no reason why she might be absent and her parents have not notified you of her absence or tardiness
   a) What steps must you take to follow up?
   b) What is the rationale?
   c) Performance Standard Citation:

3. Sasha’s family is being interviewed for enrollment into an Early Head Start Center. His father disclosed that the family recently moved in with an aunt and uncle because they could not afford increased rent. He considers it temporary and they are saving money to move into their own apartment. In the move they lost Sasha’s immunization records and don’t remember where he received them.
   a) Should Sasha be enrolled in EHS? How can you support Sasha’s family?
   b) What is the rationale?
   c) Performance Standard Citations (2):

4. The community assessment determines which community partnerships are pursued.
   a) Name five partnerships you currently have and/or would like to develop, as suggested in the regulations.
   b) Performance Standard Citation:

5. A program must offer individualized family partnership services that collaborate with families to identify interests, needs, and aspirations related to family engagement outcomes.
   a) What other service must be offered to parents? There are 3 more – write just one here.
   b) In response to this this performance standard, is there a different approach your program may take?
   c) Performance Standard Citation:
